

A VIDEO EDITOR MY NAME IS MATTHEW T A N

All Mine To Tell

I am 25 years old and graduated from Institute Era Technology.

I received a diploma in Media Techniques issued by City & Guilds of London Institute. I also have an Advanced Diploma in Multimedia Graphic Design from the West College Scotland. I have always been passionate about every project I give. I not only work hard, but also work smart. I believe video is endless possibilities. Because you can express emotions by seeing.

So, I always find a new perspective to tell the story.

My strength is video editing with After Effects to create visual 3D animations and videos. On the other hand, as a video editor, I am a multimedia graphic designer and I am also an athletic enthusiast. Therefore, I am socially friendly and I am a team player.
